The CTS100 series is an ultra-high precision manual stage developed by Feinixs, table size 100*100mm. The main material of this products is made of aluminum alloy, and the surface is anodized, which has high strength, good wear resistance and beautiful appearance. Use cross-roller guide, precision differentiator head drive, heavy load and good durability. With the precision processing technology of Feinixs, this series of products has a high sensitivity of not more than 2μm, and runs smoothly without jumping. The main material of this series of products is aluminum alloy, which is light in weight and can be built into other devices. It is suitable for use in situations with high requirements on load capacity and motion accuracy.
