FMS115R系列

FMS115R Stepper Motor High-precision Overall Translation Stage

FMS115R-50　FMS115R-100

- 50mm、100mm
-
-
- SDK
  Window、Linux
  C/C++、C#、Matlab、LabVIEW等
-
- EtherCAT

APPLICATION FIELDS

- Opto-Mechanical Experiment
- 精密测量
  Precision Measurement
- General Instrument Manufacturing

OVERVIEW

FMS115R系列位移台，采用THK的P

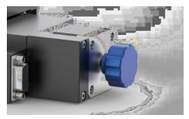

TBI,C7&C5

For high-precision, heavy-load applications, Feinixs has designed the FMS115R series of motoried stages, which use THK's P-precision cross roller guide rails with optional TBI,C7&C5 screw for excellent mechanical resolution. Feinixs standardized installation process ensures reliability and consistency, with high-performance controllers to achieve a variety of high-end features.

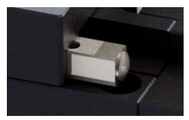

FEATURES

TYPICAL ASSEMBLY

It can be flexibly combined into multi-axis motion system,Contact for more information

SPECIFICATIONS

Model	FMS115R-50	FMS115R-100

[1]:　水平放置下的中心垂直　80kg
[2]:最小

[3]:　GB/T17421-2000
[4]:典型
[5]:最大速度　:　30mm/s,　15mm/s
